

ITALY

ITALY

# How is Italy made?

---

Our country is a parliamentary republic divided into **20 regions**, each with a capital and several provinces.

We come  
from one of  
the central  
regions:  
*LAZIO*

**ROME IS ITALY'S CAPITAL CITY, FAMOUS FOR ITS ANCIENT HISTORY AND ITS BEAUTY.**

*VITERBO* is another important city that between 1257 and 1281 was the papal seat.

We come from a  
small town located  
between Rome and  
Viterbo called  
**RONCIGLIONE**

**famous for:**

 **our carnival masks**

 **Marco Mengoni**

 **our old town**

# *OUR SCHOOL*

*Ours is a scientific high school, so as you can guess we study many scientific subjects such as chemistry, physics and biology*

*It is called "Antonio Meucci" in honor of the inventor of the telephone*

# IIS ANTONIO MEUCCI

...and this is us!
