

BIOCLOTHES

RECOLECTION

Our clothes will be made from seeds, leaves and bio plants. We will picky all this materials from old clothes and our own garden.

RECYCLE THE CLOTHES

Clothes are reworked according to what material they are. For example: If they are made of textiles, they can be discolored and repainted.

SALING

In this phase, we sell our products. The clothes that we will give a new life and the new ones that we will make from organic materials.

RETURN THE CLOTHES

This will be the last phase, in which the buyer, once he uses the clothes and does not want it anymore, returns it to us and we will take care of giving it a new life.
