

EDEN project – ERASMUS +

MICRO CYCLE

Chista Fantini, Enes Tahan, Stefan
Ivanov, Carla Morales

INTRODUCTION

Our company specialises on research and development about microchips and how to recycle it more efficiently.

MICROCYCLE

We want to help the environment because we think that if we continue to throw our old things away in the nature where they don't dissolve

HOW DOES OUR COMPANY WORK

- You bring the junk to us
- We pay for it
- That junk become our source of research and development

THANK YOU
